

CALIBRATIONS AND REPAIRS

If you're due for an audiometer calibration, simply send it to MacGill and we'll calibrate it to ANSI standards. Your first calibration of an audiometer purchased from MacGill is **FREE**. All calibrations thereafter or calibrations for audiometers not purchased from MacGill are **\$75 per unit**.

Turn around time for calibrations is approximately three to four weeks. The following audiometer models are sold by MacGill and come with one free calibration:

Ambco 650

Ambco 1000+

Earscan® 3 Manual

Earscan® 3 Automatic

Maico® MA25

Maico® MA27

Maico® MA1

MacGill also offers repair services for most equipment we sell. We provide a free estimate on all repairs and will contact you regarding the cost before starting any work. Most repairs can be completed within three to four weeks. If you need a piece of equipment repaired, please complete the form below and send it with your unit.
